- 3 Triples
- 1 Conveyors (carpets)

Climate

Average Winter Temperatures: 28 degrees daytime, 12 degrees nighttime

Average Summer Temperatures: 72 degrees daytime, 50 degrees nighttime

Fun Facts

- Wildcat Mountain is located right across the valley from the famous Mount Washington and offers great views of Tuckerman's Ravine
- Everyone loves The Wildcat Pub! The vibe inside the base lodge restaurant is unmatched. This is where you will find locals, avid skiers, and first-timers mingling and sharing stories from their last

powder run. Make friends with (buy a beer for) a local...they tend to know the best tree-skiing and powder stashes on the hill.

- Wildcat consistently holds the title of first to open and last to close in New Hampshire
- Polecat is a 2.75-mile-long green circle from the summit to the base, offering novice skiers the same big mountain experience as more advanced skiers and riders.
- Looking for a great place to stay? The Glen House is a wonderful local option. It's just about 2 miles north of Wildcat on Route 16, so transportation and proximity make this lodge very convenient. The bar and restaurant have amazing views of Mount Adams and the Northern Presidentials.
- Our sister mountain, Attitash is just 20 minutes away and is on the same lift ticket and season pass.
- Great dining experiences abound in North Conway area, named #1 Ski Town In The US by USA Today. Local favorites include farm-to-table dining at The Thompson House in Jackson, NH, amazing craft beer offerings from Tuckerman Brewing Company, and the apres scene at the world-famous Red Parka Pub in Glen, NH.

Driving Distances

- Portland, ME: 1h 30m
- Boston, MA: 3h 15m
- Manchester, NH: 2h 30m
